Potential Signs of Exploitation or Trafficking

- Person has an abrupt change in attire, behavior, or relationships
- The presence of an older “boyfriend” or “girlfriend”
- Travel with an older male/female who is not a guardian
- Sudden presence of expensive material possessions
- Youth lacks control over his/her schedule, money, and/or proof of identification
- Signs of physical trauma, including bruises, cuts, burns, and/or scars
- Lying about age, where they’ve been, who they’ve been with, etc.

What is a Trauma-Coerced Attachment?

Powerful psychological manipulation by traffickers - Victims who believe they are in love with their trafficker are easier to manipulate and control.

The diagram consists of two arrows pointing towards each other. On the left, a blue arrow points right with the text "Intermittent 'love', intimacy, and attention". On the right, an orange arrow points left with the text "Intermittent and predictable abuse and manipulation".

Doychak & Raghavan 2019, Journal of Human Trafficking

Why don't victims leave?

Fear

- Actual or threatened abuse/sexual assault/violence to self, family, friends
- Making an “example” of another victim
- Threat of criminal prosecution or deportation
- Blackmail

Dependency

- Withholding money or identity documents
- Only source of housing, food, clothes
- Posing as “friend/boyfriend/concerned relative” to induce guilt and feeling indebted
- Causing or exploiting pregnancy, chemical dependency, etc.
- Isolation from support networks, service providers, others

Psychological Factors

- “I agreed to it so it’s not illegal”
- “This is my choice”
- “I’ve done too much to go back to a normal life”
- Mind normalizes situation as defense mechanism

The Basics

- Sex trafficking of a child is a mandated report in Minnesota, even if the alleged trafficker is a non-caregiver/ household member. When in doubt, report.
- Sex trafficking requires three parts:
 - ACTOR:** Third party trafficker (not the buyer or victim)
 - ACTION:** Receiving, recruiting harboring, providing, or obtaining; or profiting
 - ACT:** Aid in the prostitution of an individual
- Reports of sexual exploitation (without a third party) or labor trafficking should be referred to voluntary child welfare services through the county or tribal agency.
- Law enforcement and county or tribal child welfare agencies must promptly cross report.

When to report?

Sexually exploited youth (260C.007)	• Only if parents, caregivers, household members or person in a position of authority involved
Commercial sexual exploitation (Safe Harbor program definition, implied 626.556)	• Only if parents, caregivers, household members or person in a position of authority involved
Known or suspected sex trafficking (referenced in 626.556, defined 609.321)	• Always must be reported, no matter who you think the trafficker is

Prevention & Early Intervention

5 X 7 Outreach Card

Minnesota recognizes that young people who are being sexually exploited need understanding, support, and guidance. There is a new Safe Harbor and Safe Harbor Law for the Minnesota Safe Harbor Law. If you are 18 or older, you can get help from your parents, caregiver, or other trusted adult. If you are under 18, the Safe Harbor Law protects you from being charged as a criminal for the sexual exploitation that might be happening to you.

Safe Harbor can help you if:

- You are being sold or traded, forced into prostitution, forced into pornography, or forced into sex work.
- You are being sold or traded, forced into prostitution, forced into pornography, or forced into sex work.
- You are being sold or traded, forced into prostitution, forced into pornography, or forced into sex work.

There are resources for your area that can help you figure out your options.

What is Sexual Exploitation? Sexual exploitation happens when someone forces you into a sexual act, or forces you to do something sexual, or forces you to do something sexual, or forces you to do something sexual.
